One textbook is provided for the student after enrollment. This book is The Audio Lab 101L Workbook by Marius Perron.

A student may pay the tuition in full before the start of class OR he may "time pay" the tuition. The "time-payment" plan for the tuition works like this. The student pays \$800 down and then pays \$42 per week for the 10-week duration of the class. If the student "time-pays" the tuition, the total amount paid is \$1220 (\$800 + 10 times \$42). On the "time-payment" plan, the total cost is broken down into \$1200 tuition and \$20 interest for the time payment of the funds.
